

Chaîne des Rôtisseurs

On April 2nd 2017 Chaîne des Rôtisseurs Denmark had an event at Restaurant Anarki titled

“An intense bistro experience with sublime food and excellent wine”

Restaurant Anarki is a wine Bistro that take their wines very serious. The Master Sommelier Christian Thorsholt Jacobsen has won the Danish competition for Sommeliers twice, Nordic champion once and became no. 6 at the World Championships in Argentina. Maître Rôtisseur Rune Sauer Sonnichsen had been cooking traditional French food at Restaurant Mée (where he still is partner) – but wanted to try something less strict theme (therefore the name Anarki). In his kitchen there are no rules – if it taste great it will be served. That we experienced already at the snacks when we were served a waffle with serrano ham and truffle mayo – that was really fantastic. The serving was made in the very simple form “family style” where a single serving is shared by several persons at the table.

Before the coffee was served, Bailli Délégué Jørgen Krenk gave his appreciation of the dinner. He pointed out how impressed he was of the intense flavors of the food, especially the pork bellies in teriyaki sauce was a hit – and the dessert was a firework of different tastes. The wines were extremely well selected and several members made notes for their personal wine cellar. The staff was rewarded the special “Chain Service Brigade” pin that are only awarded to the best service brigades.
